

## Thames Valley Diabetes Local Research Network Portfolio Update

Below is a list of studies that are on the UKCRN Portfolio and are currently open or in set up in the Thames Valley Diabetes Local Research Network. Studies highlighted in blue are directly supported by the TVDLRN team.

<b>Study Acronym</b>	<b>Study Title</b>	<b>Disease Area / Study Type</b>	<b>Recruiting Site</b>	<b>Principal Investigator</b>	<b>Status</b>
ASCEND DRN023	A randomised 2x2 factorial study of aspirin versus placebo, and omega-3 fatty acid supplementation versus placebo, for primary prevention of cardiovascular events in people with diabetes	Cardiovascular disease, All diseases / Randomised controlled trial	Oxfordshire, Buckinghamshire, Berkshire, Warwickshire Coventry Milton Keynes Hospital of St Cross	No local Investigator	Recruiting Recruiting Recruiting Recruiting Recruiting
ICCD DRN031	Evaluation of intermediate care clinics for diabetes	Hypertension / All diseases	UHCW Coventry / Coventry PCT/  George Eliot Hospital / Warwickshire PCT	Prof S Kumar/ Dr P O'Hare  Dr P Saravanan	Recruiting  Recruiting
Genetics of MODY DRN036	The identification of the molecular genetic basis of maturity onset diabetes of the young	Multiple complications / Observational study	UHCW Coventry	Prof S Kumar	Recruiting
DRN051	Commercial study	Diabetic control / Randomised controlled trial	OCDEM  Wycombe Hospital Mortimer Surgery	Prof D Matthews  Dr I Gallen Dr C Strang	Closed
FACTS DRN067	A randomised controlled trial to examine whether enhanced family communication improves glycaemic control in adolescents with type 1 diabetes	Diabetic control / Intervention study	UHCW	Dr H Murphy (Study Chief Investigator)	Recruiting
AdDIT DRN068	Adolescent Type 1 diabetes intervention trial. Adolescent Type 1 diabetes cardio-renal protection study	Nephropathy, Cardiovascular disease, Hypertension / Intervention	John Radcliffe, Oxford  Royal Berkshire Hospital Stoke Mandeville Hospital	Dr J Edge  Dr N Mann Dr A Dutta	Recruiting  In set up In set up

<b>Study Acronym</b>	<b>Study Title</b>	<b>Disease Area / Study Type</b>	<b>Recruiting Site</b>	<b>Principal Investigator</b>	<b>Status</b>
Telemedicine Study DRN071	Telemedicine support for improving glycaemic control with conventional management of insulin requiring type 2 diabetes: exploratory study	Diabetic control / Randomised controlled trial	Oxfordshire Royal Berkshire Hospital	Dr A Farmer	Follow up
YDX DRN076	Characteristics of people diagnosed with diabetes aged 45 years or younger: a cross sectional study and incidence study	Diabetic control / Observational study	OCDEM, Oxfordshire Royal Berkshire Hospital	Dr K Owen Dr H Simpson	Recruiting Recruiting
SIRS DRN079	Study of the genetics of severe insulin resistance	Multiple complications / Observational study	UHCW Coventry Milton Keynes Hospital	Prof S Kumar Dr P Latham	Recruiting Recruiting
Nephropathy Family Study DRN085	Genetic analysis of risk factors for the development of diabetic complications	Nephropathy / Observational study	John Radcliffe Hospital, Oxford Horton Hospital, NFS Royal Berkshire Hospital Stoke Mandeville Hospital	Dr J Edge Dr Julie Edge Dr N Mann Dr A Dutta	Recruiting Recruiting Recruiting In set up
DRN086	Commercial Study	Diabetic control / Randomised controlled trial	OCDEM Park Leys	Prof D Matthews Dr A Smithers	Follow up Follow up
Exercise in Obese Children DRN103	The role of reduced physical fitness in cardiovascular disease risk in South Asian children	Cardiovascular disease / Intervention study	UHCW Coventry	Dr K Matyka	Recruiting
DRN124	Commercial Study	Diabetic control / Randomised controlled trial	Royal Berkshire Hospital Westongrove Research Centre Mortimer Surgery	Dr H Simpson Dr R Reed Dr Strang	Follow up Follow up Follow up
DRN129	Commercial Study	Diabetic foot	UHCW Coventry	Dr A Anwar	Recruiting

<b>Study Acronym</b>	<b>Study Title</b>	<b>Disease Area / Study Type</b>	<b>Recruiting Site</b>	<b>Principal Investigator</b>	<b>Status</b>
GOOS	The genetics of obesity study	All disease types / Observational study in children	UHCW Coventry	Dr K Matyka	Recruiting
SAMS 2	Use of a blister pack recording device to measure tablet taking behaviour in patients with type 2 diabetes: a proof-of-concept study in UK general practice	All diseases, device study / Observational study (pilot study)	Milton Keynes Parkside Wolverton	Dr A Farmer	Follow up
Evaluation: The Co-creating Health Initiative v1	The evaluation of the Health Foundation's co-creating health initiative	Observational	UHCW Coventry George Eliot Hospital Park Leys M/Centre Atherstone Surgery	Prof S Kumar	Recruiting
DRN 179 Lira 2	Commercial Study	Diabetic control / Randomised controlled trial	George Eliot Hospital Hospital of St Cross UHCW Coventry OCDEM	Dr P Saravanan Dr P O'Hare Prof S Kumar Prof D Matthews	Recruiting Recruiting Recruiting Recruiting
InCA DRN192	Insulin dose to carbohydrate adjustment. Type 1 diabetic control.	Diabetic Control, Nutrition, Education/ Intervention study	OCDEM	Dr A Farmer	Recruiting
OneLook DRN208	Non invasive blood glucose measurement (pilot study)	Device study/ Intervention Study	Royal Berkshire Hospital	Dr H Simpson	Closed
DRN213	Fear of hypoglycaemia in childhood diabetes	Observational / Multiple complications	UHCW Coventry UHCW Coventry	Dr Krystyna Matyka Dr S Rose	Recruiting Recruiting

<b>Study Acronym</b>	<b>Study Title</b>	<b>Disease Area / Study Type</b>	<b>Recruiting Site</b>	<b>Principal Investigator</b>	<b>Status</b>
DRN190	Commercial Study	Diabetic control / Randomised controlled trial	OCDEM	Prof D Matthews	Reserve site
DRN198 Systems Biology Protocol - Sitagliptin	Systems biology investigation of the effects of sitagliptin on glucose metabolism and beta cell function in non-diabetic and type 2 diabetic individuals	Diabetic control / Randomised controlled trial	OCDEM	Prof D Matthews	In set up
<a href="#">DRN072 DTSQ</a>	Assessing and improving inpatient diabetes treatment satisfaction in different ethnic groups in the UK	Diabetic control / Observational	Milton Keynes Hospital John Radcliffe Hospital Wycombe Hospital Stoke Mandeville Hospital	No local investigator	Recruiting Recruiting Recruiting Recruiting
HPS2-THRIVE	Treatment of HDL to Reduce the Incidence of Vascular Events: A randomised trial of the long term clinical effects of raising HDL cholesterol with extended release niacin/laropiprant	Cardiovascular disease / Interventional	CTSU, Oxford	Dr Jane Armitage	Recruiting
SAMS Follow Up	SAMS follow up – Impact of an intervention to support patients with type 2 diabetes with adherence to medication: extended follow up	All disease areas / Observational	Milton Keynes Parkside Wolverton	Dr A Farmer	Recruiting
PCRN03 PREMIUM	A comparison of blood pressure lowering efficacy and safety. A randomised, double-blind, 9 month study of the efficacy and safety of four uptitrated doses of oral fixed combinations of medications in mild to moderate hypertension	Cardiovascular disease / Interventional	Sherbourne Medical Centre The Atherstone Surgery	Dr Ainsworth Dr Weston	In Follow Up In Follow Up
